-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 5/5/2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

The objection to the abstract has not been withdrawn. The applicants have sent in the same abstract.! They have not sent in an abstract drawn to the elected group.

The rejection of claims 17-25 under 35 USC 112 has been withdrawn since applicants have amended the claims to delete the ester imide susceptible to being cleaved... language.

The rejection of claims 17-25 under 35 USC 103 has been withdrawn.

The prior art teaches which biphenyl is linked via the N to the piperidine and also has the phenyl group linked to the same carbon which is attached to the C=O group.

The Method Claim 26 is being rejoined.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Art Unit: 1625

Claim 26 is rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for ovarian cancer, does not reasonably provide enablement for any and all diseases treatable by multidrug resistance and/or inhibiting transport protein. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims.

In re Wands, 858 F.2d 731, 737, 8 USPQ2d 1400, 1404 (Fed. Cir. 1988).

There is very **little predictability in the art** the drugs would have an umbrella efficacy. The **state of the art indicates** that a drug which can cure one cancer is inactive against another type of cancer, let alone treat other diseases!

The specifications **do not provide any guidance** that the compounds can treat other diseases. the only example is that of ovarian cancer.

Thus one of skill in the art would have to **do an undue amount of experimentation** to find which diseases are treatable by the compounds.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 26 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim is a reach through claim treating multidrug resistance or inhibiting transport protein activity! It reads on treating diseases that are still to be discovered to be treatable by these mechanisms.

Art Unit: 1625

The claim does not recite a disease which it does treat.!

(Applicants can overcome this by inserting ONE enabled disease in the claim)

Conclusion

Claims 17, -19, 23-25 are found to be allowable.

Claim 26 is rejected.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
